Australian Homelessness Vulnerability Triage Tool (AHVTT)

Youth

Version 1.4

Queensland Only

advance to zero

**local communities
ending homelessness**

The Australian Homelessness Vulnerability Triage Tool (AHVTT) was developed through a process of feedback and consultation that took place both through survey form, in person discussion and virtual discussions.

The AHVTT should be used in the context of Advance to Zero (AtoZ), a national initiative of the Australian Alliance to End Homelessness (AAEH) that supports local collaborative efforts to end homelessness. To learn more, visit: aaeh.org.au/atoz

Front line services, First Nations representatives and people with lived experience provided crucial feedback to ensure that this tool will be a good representation of a person's presenting experience of homelessness and their immediate needs.

The tool, based on people's disclosed information, assists in prioritising the most vulnerable and to rapidly resolve crises. This tool is further used to provide appropriate housing, healthcare and community services to individuals and families according to their current circumstances.

Organisations also use the collective, de-identified data to advocate for the change and resources needed to end homelessness in our communities, based on the needs of the people who experience homelessness and housing stress in the community.

The AHVTT was developed by the Australian Alliance to End Homelessness (AAEH) and partners. The AAEH would particularly like to thank OrgCode Consulting and Micah Projects for their support in its development.

Explanation of the AHVTT and consent

My name is _____ and I work for _____.

I have with me here a survey for people experiencing homelessness called the Australian Homelessness Vulnerability Triage Tool, which you may hear referred to as the AHVTT. It asks questions about your experience of homelessness, risk factors that may impact your life, your day to day life, and your health and wellness. This information is important to help us identify key health, wellness and housing options that will suit your needs.

The survey should take about 15 minutes or so. Throughout the survey you can:

- Stop at any time you choose
- Skip or decline to answer any question you do not want to answer
- Take a break and come back to the survey another time
- Change your answers at anytime throughout the survey or after
- Ask for some help with understanding what the question is.

The information collected will be stored within a secure database to which only approved service providers and their staff will have access. I ask you to be as honest as possible as your circumstances are very important to us and we want to make sure that the housing outcomes and support you receive are the most suitable for you.
